Art Unit: 3653

1. Applicant's election without traverse of Group I, claims 1-7 and 11-13, in Paper No. 4 is acknowledged.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 through 7 and 11 through 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 lines 17-18, the function of the "pivotal latching means" is not clearly understood as no function of the latching means has been recited.

In claim 4 lines 9-13, the function of the "latching means" is not clearly understood as no function for the latching means has been clearly recited.

In claim 6 lines 9-10, the function of the "latching means" is not clearly understood as no function for the latching means has been recited.

In claim 11 line 2, the function of the "identification means" is not clearly understood since no function for such means has been clearly recited.

In claim 11 line 2, it is not clearly understood to what element "it" is intended to refer. Does "it" refer to the "modules" or the "cartridge"?

In claim 11 lines 2-3, the language "the identification designator" lacks antecedent basis, therefore; it is unclear whether this language is referring to the "identification means" or information generated by the "identification means."

In claim 12 line 2, the function of the "access means" is not clearly understood since no function for such means as been clearly recited.

Art Unit: 3653

4. Claims 1 through 7 and 11 through 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
